

PRODUCT SPOTLIGHT

Water-Based Defoamers

Effective
over a wide
pH range!

TRANS-771, TRANS-2853, and JS-10

Key Attributes

- Low cost
- Biodegradable
- Non-VOC (Volatile Organic Compounds)

Benefits

- Used in a wide range of applications—from wastewater to paper processing
- Alternative to oil-based and silicone containing defoamers
- Easily miscible with water
- Effective over a wide pH range
- Efficient foam suppression
- Provides good deaeration
- Does not contribute to deposition
